A.1 My first appendix	8

List of Acronyms

AP	Acidification Potential
ASF	Adaptive Solar Facade

List of Figures

1.1	Figure Example	2
-----	--------------------------	---

List of Tables

Introduction

1.1 Motivation and Literature Review

Buildings are at the heart of society, and have a large impact on global health, economics and the environment. Europeans alone spend on average 90% of their time in buildings [1] whether it be for work, rest or the multitude of activities that exists in modern society...

1.2 Problem Statement

A big problem is on the horizon

1.3 Objectives of Research

Based on the problem statement, the objectives are to

- Objective 1
- Objective 2

1.4 Thesis Outline

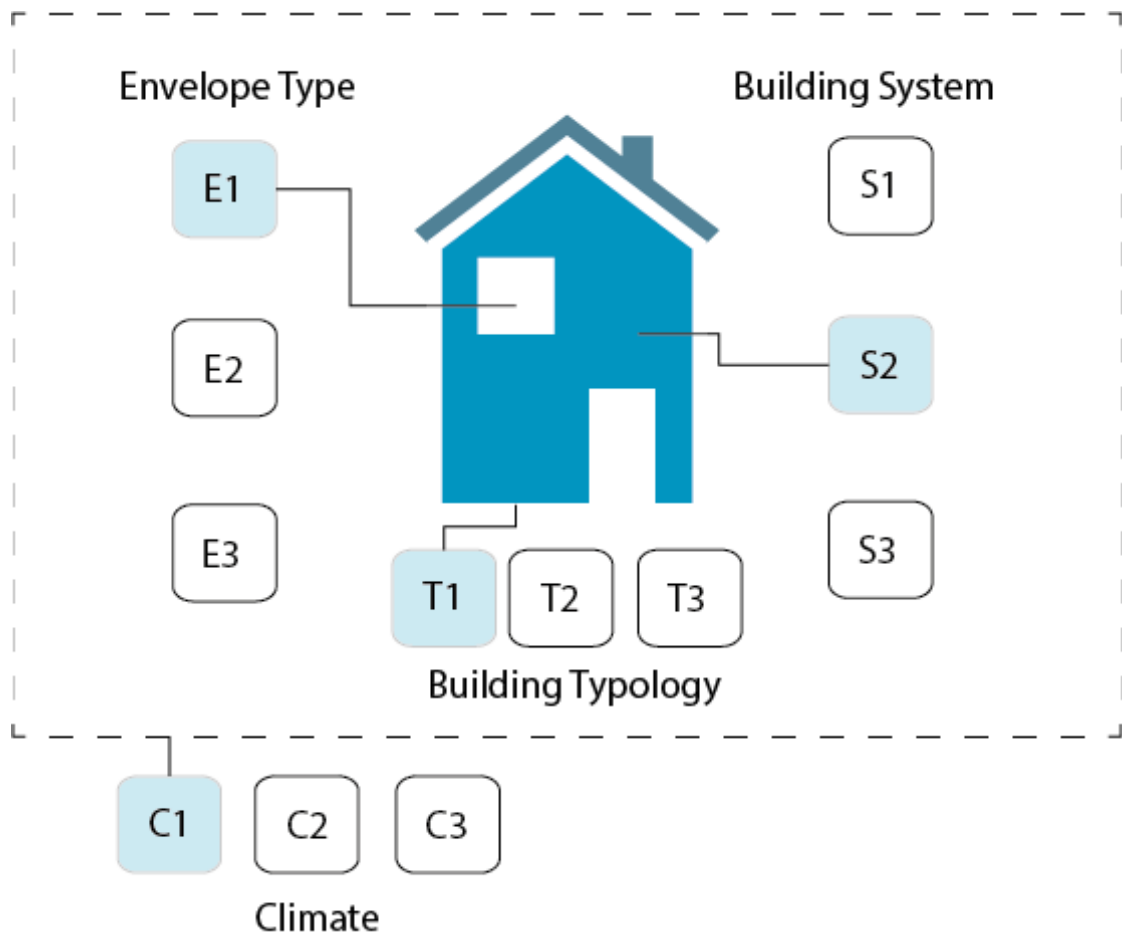

Figure 1.1: Figure Example

Methodology

We did some stuff to solve our problem statement

Results

The results were really cool

Discussion

We had some really cool results

Conclusion

In conclusion, the results were really cool

Appendices

A.1 My first appendix

A blind-ended tube connected to the cecum, from which it develops embryologically. The cecum is a pouchlike structure of the colon, located at the junction of the small and the large intestines.
