Introduction

1.1 Motivation and Literature Review

Buildings are at the heart of society, and have a large impact on global health, economics and the environment. Europeans alone spend on average 90% of their time in buildings [1] whether it be for work, rest or the multitude of activities that exists in modern society...

1.2 Problem Statement

1.3 Objectives of Research

Based on the problem statement, the objectives are to

- Objective 1
- Objective 2

1.4 Thesis Outline
